## Disclaimers

### Report Disclosure

The performance results shown in this report are specific to your account(s) and are presented for the period indicated. Performance is calculated based on information available to us from your custodians and other sources believed to be reliable. However, no representation or warranty is made as to the accuracy or completeness of this information. Past performance is not indicative of future results.

The information contained in this consolidated investment summary is not the official record of your account(s) and investments. It has been prepared to assist you with your investment planning and is provided for informational purposes only. Please review your custodial account statements carefully and promptly report any discrepancies. Please contact us if you have any questions about the information in this report or if you have had changes to your financial situation.

### Benchmark Comparison

Any benchmark or index performance shown is provided for comparison purposes only and is not intended to represent the performance of your account. Indexes are unmanaged, cannot be invested in directly, and do not reflect the deduction of management fees, trading costs, or other expenses.

The Consumer Price Index (CPI), published by the U.S. Bureau of Labor Statistics, measures the average change over time in the prices paid by urban consumers for a representative basket of goods and services. It serves as a widely accepted indicator of inflation and cost-of-living trends. In this report, CPI may be used as a benchmark to evaluate the real (inflation-adjusted) performance of investments or financial projections. Please note that CPI reflects general economic conditions and may not correspond precisely to the individual inflation experience of any specific client.

### Valuation of Private Investments

Values for private funds, limited partnerships, or other non-publicly traded investments are based on the most recent information provided by the fund sponsor, general partner, or manager. These valuations are typically reported on a quarterly or less frequent basis and may be estimates subject to adjustment. No independent verification of these valuations has been performed. Actual values may differ from those shown, and such differences could be material.
